- Flat fee: £1000 plus accommodation provided on 11th, 12th, 13th & 14th, £12 daily food allowance when staying overnight and contribution to travel expenses.

ABOUT THE PROJECT

Katie Dale-Everett Dance are supported by Arts Council England National Lottery funding and by Studio Wayne McGregor through the Questlab Network Programme to begin early stage research into their new work 'Empa'.

'Empa' acknowledges the fact that how we perceive people is not necessarily how they feel/see themselves.

We are looking for a creative technologist to join our team for the second week of research, exploring how we may be able to bridge this gap of perception for the better by utilising technology to exchange presence, senses and embodiment. We hope to be able to increase intimacy and understanding and enable people to see others and self more truthfully, differently and clearly. The work focuses on the live exchange of vision through virtual reality in collaboration with movement.

ABOUT KATIE DALE-EVERETT DANCE

Katie Dale-Everett Dance's mission is to harness every opportunity choreography and the digital create for connecting people, spaces and experiences within a world where we believe connection should be nurtured more. Generating unique, modular and tourable amalgamations of choreography, the digital and human interaction, we celebrate, question and excavate the world around us with a desire to creatively realise projects and works that are accessible, informative, relevant, enjoyable and educational for those new to and those who have already found their love of the arts.
